

AUTHOR GUIDELINES FOR ISBI 1-PAGE ABSTRACT MANUSCRIPTS

Author(s) Name(s)

Author Affiliation(s)

Please look at the template and guidelines for the full proceedings submissions for detailed information about style requirements (fonts, spacing, referencing, etc.). One-page abstract submissions should contain all the information on a single page. You may structure your one-page submission using an introductory paragraph serving as an “abstract section” for your one-page abstract.

1. MAJOR HEADINGS

Major headings should be used to structure your one-page abstract.

2. FORMATTING YOUR PAPER

Do not write or print anything outside the print area. All text must be in a two-column format. Text must be fully justified.

Please do **not** paginate your paper.

Avoid using footnotes altogether and include necessary peripheral observations in the text .

3. OTHER INFORMATION

Illustrations must appear within the designated margins. They may span the two columns. If possible, position illustrations at the top of columns, rather than in the middle or at the bottom. Caption and number every illustration.

Since there are many ways, often incompatible, of including images (e.g., with experimental results) in a \LaTeX document, below is an example of how to do this [1].

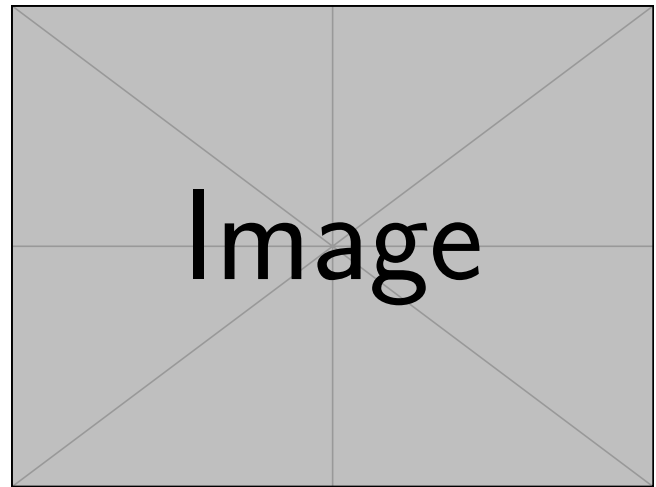

List and number all bibliographical references at the end of the paper and reference them in the text using square brackets [2] or [2, 1] for several references.

Reporting on real or potential conflicts of interests, or the absence thereof, is required in the paper.

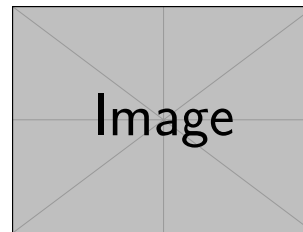

Reporting on compliance with ethical standards is required (irrespective of whether ethical approval was needed for the study) in the paper.¹

A footnote can be used to report funding sources and other potential conflicts of interest. Use Times 9-point type, single-spaced.

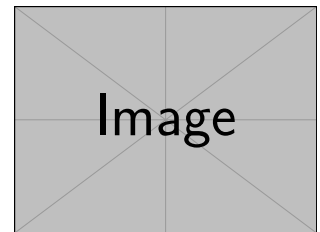

¹A footnote can also be used to report on ethical compliance.

(a) Result 1

(b) Results 3

(c) Result 4
