Physical Poster Instructions

Thank you for participating to IEEE ISBI 2023.

Here are instructions to prepare your physical poster to be displayed during the entire duration of the conference.

Guidelines for preparing your Poster:

File format: 1-page portrait format
Dimensions: A0 (width: 841mm or 33.1 inches; height: 1189 mm or 46.8 inches)

Note that the ePoster and physical poster follow the same format, so once you have your poster ready for printing, you can also easily upload it as ePoster as well (see specific instructions).

In order for files to be verified by the technical program committee, **we ask that you please finalize and upload your material no later than March 31, 2023**.
